SUMMARY

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A - E(A.1 - E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "Not Applicable".

Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this summary.

		Section B – Issuer
B.1	Legal name of the Issuer:	The Paragon Group of Companies PLC
	Commercial name of the Issuer:	Paragon
B.2	Domicile and legal form of the Issuer:	The Issuer is a public limited company incorporated in England and Wales under the Companies Act 1985 and operating under the Companies Act 2006, as amended. The Issuer has its registered office in Solihull, West Midlands.
B.4b	Known Trend information:	Trends in the UK housing and BTL markets As at 30 September 2014, both Halifax (part of the Lloyds Banking Group) and the Nationwide Building Society reported an upward trend in UK house prices with annual house price inflation in excess of 9 per cent (with significant regional variations).

The Council of Mortgage Lenders ("CML") reported that activity in the UK's housing market, as measured by value of gross mortgage advances, decreased significantly from approximately £363 billion of transactions in 2007 to approximately £135 billion in 2010 and has since recovered to approximately £176 billion in 2013. During this period of reduced housing transactions, rental demand has grown significantly. Whilst transaction volumes remain low by historical standards, CML reported that, during the year ended 30 September 2013, the value of buy-to-let ("BTL") advances increased by 31.8 per cent. to £20.7 billion versus £15.7 billion in the year ended 30 September 2012. With both the owneroccupied and social rented sectors under pressure, the private rented sector has continued to expand in recent years, with the latest data from the Department for Communities and Local Government ("DCLG") confirming that within England the sector now accounts for 18 per cent. of all households (English Housing Survey 2012 - 2013). The Royal Institution of Chartered Surveyors ("RICS") UK Residential Market Survey published in July 2014 indicated that rents are projected to grow by 2.5 per cent. over the following 12 months. Data from the Association of Residential Letting Agents ("ARLA") supports this trend for increasing rents, with the latest ARLA Private Rented Sector Survey (Q2 2014) indicating that the majority of agents report strengthening rental demand. The same ARLA survey indicates that rental yields remain relatively stable at 4.9 per cent. for houses and 5.2 per cent. for flats.

Trends in the UK debt purchase market

The change of regulation to the Financial Conduct Authority of the United Kingdom ("FCA") has increased vendors' awareness of their obligation to maintain regulatory oversight of the third parties that purchase their assets. Regulatory oversight requirements are also increasing the barriers to entry, with vendors demonstrating a preference to transact with purchasers such as Idem Capital Securities Limited ("Idem"), that are able to demonstrate a track record of compliance with FCA requirements.

Trends in UK retail banking - the emergence of challenger banks

The expansion of banking services in the UK in recent years has seen the rise in number of smaller retail banks, often with no high street presence (frequently referred to as challenger banks), including some relatively established names such as Tesco Bank (the trading name of Tesco Personal Finance Group plc), Virgin Money plc and Handelsbanken (the trading name of Svenska Handelsbanken AB), alongside newer entrants such as Aldermore Bank PLC and Metro Bank PLC.

		Section C – The Notes					
C.1	Description of	Issuance in Series: Notes will be issued in series (each a "Series"). Each					
	Type and	Series may comprise one or more tranches (each a "Tranche") issued on					
	Class of	different issue dates. The Notes of each Series will all be subject to					

Securities:

identical terms, except that the issue date and the amount of the first payment of interest may be different in respect of different Tranches. The Notes of each Tranche will all be subject to identical terms in all respects save that a Tranche may comprise Notes of different denominations.

The Notes may be Fixed Rate Notes, Floating Rate Notes or Zero Coupon Notes.

Forms of Notes: Notes may be issued in bearer form ("**Bearer Notes**") or in registered form ("**Registered Notes**"). Bearer Notes will not be exchangeable for Registered Notes and Registered Notes will not be exchangeable for Bearer Notes. No single Series or Tranche may comprise both Bearer Notes and Registered Notes.

Each Tranche of Bearer Notes will initially be either a temporary global note in bearer form (the "Temporary Global Note"), without interest coupons, or a permanent global note in bearer form (the "Permanent Global Note"), without interest coupons, (each a "Global Note") in each case as specified in the relevant Final Terms. Each Global Note which is not intended to be issued in new global note form (a "Classic Global Note" or "CGN"), as specified in the relevant Final Terms, will be deposited on or around the relevant issue date with a depositary or a common depositary for Euroclear Bank S.A./N.V. ("Euroclear") and Clearstream Banking, société anonyme ("Clearstream, Luxembourg") and/or any other relevant clearing system and each Global Note which is intended to be issued in new global note form (a "New Global Note" or "NGN"), as specified in the relevant Final Terms, will be deposited on or around the relevant issue date with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. Each Temporary Global Note will be exchangeable for a Permanent Global Note or, if so specified in the relevant Final Terms, for individual notes in definitive form ("Definitive **Notes**"). If the TEFRA D Rules are specified in the relevant Final Terms as applicable, certification as to non-U.S. beneficial ownership will be a condition precedent to any exchange of an interest in a Temporary Global Note or receipt of any payment of interest in respect of a Temporary Global Note. Each Permanent Global Note will be exchangeable for Definitive Notes in accordance with its terms. Definitive Notes will, if interest-bearing, have Coupons attached and, if appropriate, a Talon for further Coupons.

Each Tranche of Registered Notes will be in the form of either individual Note Certificates in registered form ("Individual Note Certificates") or a global Note in registered form (a "Global Registered Note"), in each case as specified in the relevant Final Terms. Each Tranche of Notes represented by a Global Registered Note will either be: (a) in the case of

a Note which is not to be held under the new safekeeping structure ("New Safekeeping Structure" or "NSS"), registered in the name of a common depositary (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and the relevant Global Registered Note will be deposited on or about the issue date with the common depositary; or (b) in the case of a Note to be held under the New Safekeeping Structure, be registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and the relevant Global Registered Note will be deposited on or about the issue date with the common safekeeper for Euroclear and/or Clearstream, Luxembourg.

If so specified in the applicable Final Terms, Investors may also hold interest in the Notes through Euroclear UK & Ireland Limited (formerly known as CREST Co Limited) ("CREST") through the issuance of dematerialised depository interests, held, settled and transferred through CREST ("CDIs"), representing interests in the relevant Notes underlying the CDIs (the "Underlying Notes"). CDIs are independent securities constituted under English law and transferred though CREST and will be issued by CREST Depository Limited (the "CREST Depositary") pursuant to the global deed poll dated 25 June 2001 (as subsequently modified, supplemented and/or restated). Neither the Notes nor any rights attached thereto will be issued, held, transferred or settled within the CREST system other than through the issue, holding, transfer and settlement of CDIs. Holders of CDIs will not be entitled to deal directly in the Notes and, accordingly, all dealings in the Notes will be effected through CREST in relation to the holdings of CDIs.

Security Identification Number(s): In respect of each Tranche of Notes, the relevant security identification number(s) will be specified in the relevant Final Terms.

[Specified Denomination: [•]]

Status of the Notes: The Notes constitute direct, general, unconditional and unsubordinated obligations of the Issuer which rank at least *pari passu* with all other present and future unsecured obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

Negative Pledge: The Notes will have the benefit of a negative pledge that so long as any Note remains outstanding, (i) the Issuer shall not create or permit to subsist any Security Interest (other than a Permitted Security Interest) upon the whole or any part of its present or future undertaking, assets or revenues (including uncalled capital) to secure any Indebtedness of the Issuer or Guarantee entered into by the Issuer; and (ii) the Issuer shall procure that none of its Subsidiaries will create or permit to subsist any Guarantee in respect of any Indebtedness of the Issuer, without (in respect of (i)) (a) at the same time or prior thereto securing the Notes equally and rateably therewith to the satisfaction of the Trustee, or (b) providing such other security for the Notes as the Trustee may in its absolute discretion consider to be not materially less beneficial to the interests of the Noteholders or as may be approved by an Extraordinary Resolution of Noteholders.

Gearing covenant: So long as any Note remains outstanding (as defined in a trust deed dated 11 February 2013 (the "Trust Deed"), the Issuer will ensure that the ratio of Net Senior Debt of the Issuer to Issuer Equity shall not exceed 1:1 (the "Gearing Ratio") on each Calculation Date. A default only exists if the Issuer is in breach of the Gearing Ratio covenant on a Calculation Date and has not remedied such breach before the Reporting Date following such Calculation Date.

Events of Default: The Conditions contain Events of Default including those relating to (a) non-payment, (b) breach of other obligations, (c) cross default subject to a threshold of £20,000,000, (d) enforcement proceedings, (e) security enforcement, (f) insolvency, and (g) winding-up. The provisions include certain minimum thresholds and grace periods. In addition, Trustee certification that certain events would be materially prejudicial to the interests of the Noteholders is required before certain events will be deemed to constitute Events of Default.

Taxation: All payments in respect of Notes will be made free and clear of withholding taxes of the United Kingdom unless the withholding is required by law. In that event, the Issuer will, subject to customary exceptions, pay such additional amounts as will result in the Noteholders receiving such amounts as they would have received in respect of such Notes had no such withholding been required.

87441-3-4218-v5.0 - 12-

Meetings: The Conditions contain certain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Governing Law: English law.

Enforcement of Notes in Global Form: In the case of Global Notes, individual Investors' rights against the Issuer will be governed by a Trust Deed dated 11 February 2013, a copy of which will be available for inspection at the specified office of the Principal Paying Agent.

Section D - Risks

D.2 Key risks specific to the Issuer:

The following key risks are specific to the Issuer:

- As a primary lender and purchaser of loan portfolios, the Group faces credit risk as an inherent component of its lending activities and any adverse changes in credit quality and loan recoverability could affect the Group's business. Any deterioration in UK economic conditions could lead to generally weaker than expected growth, contracting GDP, reduced business confidence, higher levels of unemployment, rising inflation, potentially higher interest rates and falling property prices which could consequently lead to an increase in delinquency rates and default rates by the Group's customers. Any adverse changes in credit quality and loan recoverability could have a material adverse effect on the Group's reputation, business, results of operations, profitability or financial condition which could adversely impact the Issuer's ability to fulfil its obligations under the Notes.
- A downturn in business condition or the general economy in the UK may adversely affect all aspects of the Group's business as demand for the Group's products is susceptible to fluctuations in interest rates, employment levels, taxation and other factors that determine disposable income and demand for rental property. In addition, decreases in UK residential property prices could also reduce the value of security against outstanding loans potentially increasing the Group's losses in the event of a repossession. Such reductions in demand for new products and decreases in value of security could have an impact on the profitability of the Group.
- Changes and mismatches in interest rates may adversely impact the Group's revenue and/or profits where there are differences in the rate of borrowing and the rate of lending, payable interest rates change on different dates to receivable interest rates, and interest rates are not determined by reference to LIBOR so increases cannot be passed on to borrowers.
- Increasing competition in all of the core markets in which it operates.
- Changes in supervision and regulation could materially affect the Group's business, the products or services it offers or the value of its assets or returns from its assets as a result of stricter regulatory requirements beyond the Group's control.
- The Prudential Regulation Authority of the United Kingdom regulates the activities of Paragon Bank, the Issuer and the Group in connection with the Group's banking activities. Any regulatory action in the event of a bank failure by Paragon Bank could materially adversely affect the value of the Notes.

		• Increases in the cost or reductions in availability of the Group's funding to finance the origination of new business, portfolio acquisitions and working capital could adversely impact the Group's financial performance and results from operations.
D.3	Key risks	The following key risks are specific to the Notes:
	Specific to the Notes:	• The Notes will be structurally subordinated to the claims of all holders of debt securities and other creditors, including trade creditors, of the Issuer's subsidiaries. In the event of an insolvency, liquidation, reorganisation, dissolution or winding up of the business of any subsidiary of the Issuer, creditors of such subsidiary generally will have the right to be paid in full before any distribution is made to the Issuer.
		Holders of CREST depository interests will hold or have an interest in a separate legal instrument and will not be the legal owners of the Notes so rights under the Notes cannot be enforced except indirectly through the intermediary depositaries and custodians and rights are governed by external provisions.
		• The Notes are not protected by the Financial Services Compensation Scheme (the "FSCS") or any other government savings or deposit protection scheme. The FSCS will not pay compensation to an investor in the Notes upon the failure of the Issuer. If the Issuer goes out of business or becomes insolvent, Noteholders may lose all or part of their investment in the Notes.
		• Investors and sellers of the Notes may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions.
		• Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. If an investor chooses to sell prior to maturity of the Notes, the investor may receive an amount less than the amount due to be repaid upon maturity.
